CREDIT FOR WORK EXPERIENCE FORM FOR
DOMAIN 4: TRAUMA AND RESILIENCY

Name of Applicant: __________________________________________________________

Name of Clinical Supervisor*: ________________________________________________

The Clinical Supervisor must have provided direct clinical supervision to the applicant during the time frame referenced in this waiver request and must be a Master’s level clinician*. Acceptable credentials include LCPC, LCSW, APRN, Psychologist, MD/DO, and Psychiatrist. For a complete listing of acceptable credentials, please refer to the Guidelines for MHRT/C Certification.

Dates of Supervision (start & end): ____________________________________________

Please note that each waiver request must have its own specified and distinct time frame. No overlapping of dates and domains is permitted.

By initialing each knowledge competency for this MHRT/C requirement below the Clinical Supervisor* attests that the applicant has a high level of competence in them. Please attach a document summarizing the work the applicant has performed under supervision that relates directly to these competencies for this course. Please give specific examples of how the applicant has demonstrated these competencies in their work. Clinical supervisor must sign each additional page.

____ Describe the prevalence and impact of various types and contexts of trauma, e.g., domestic violence, physical and sexual abuse, sexual assault, exposure to combat, and other life-threatening events.

____ Recognize the impact of trauma on behavior, functioning, and other health-related conditions and symptoms. Please give examples.

____ Demonstrate a sensitivity to the behavioral health issues, including substance use disorders, affecting survivors of trauma and the stages of recovery they will experience.

____ Characterize the importance of working from a trauma-informed perspective and describe techniques of trauma-informed care, as well as the effects of vicarious traumatization.

____ Summarize the effects of trauma on survivors, including intergenerational trauma, inter-familial trauma, experience of trauma at various life stages, and experience of trauma specific to special populations and cultural contexts, e.g., veterans, refugees, immigrants.

____ Recall the Adverse Childhood Experiences (ACE) Study and its correlation with trauma.

____ Describe evidence-based treatment approaches for trauma-related conditions, e.g., Seeking Safety, TREM, EMDR, and DBT.

____ Identify and refer survivors of trauma to specialized support resources in the community to assist in the recovery process.
